EDUCATION

New York University, Center for Data Science, New York, NY
Master of Science, Data Science, Computational Social Science

Sept. 2025 - May 2027

University of California San Diego, San Diego, CA
Bachelor of Science, Social Psychology
Honors: Cum Laude, Provost Honors, Marshall College Honors

Aug. 2021 – June 2023

RELEVANT PROJECTS

Research Project using Python

- Analyzed user ratings across streaming platforms to discover correlations between film attributes and reception.
- Applied non-parametric statistical tests to examine user rating distributions across streaming services.
- Designed an entertaining presentation with data visualizations to deliver project outcomes to a diverse audience.

Research Project using RStudio

- Created a model that determines the correlations between personality and digital consumer behavior.
- Created a rating system to identify the highest multivariate correlations in RStudio.
- Presented to a class of 50 on implications of social media behavior using R and Tableau data visualizations.

Research Project using SPSS and Qualtrics

- Built models using regression analysis and linear models on large sets of human data on moral perceptions.
- Performed multivariate analysis using hundreds of data points in SPSS.
- Reported findings of end-to-end research and future considerations to a panel of professors.

EXPERIENCE

Sales Associate, Coach, SoHo, NY

Dec. 2024 – Present

- Create strong relationships with customers with a sales and client-centered focus.
- Increased store sales by 20% and sold \$10,000 worth of merchandise in one selling shift.

Volunteer, Second Harvest of Silicon Valley, San Jose, CA

Jan. 2024 – July 2025

- Collaborated in large, cross-functional teams to deliver data-driven hands-on solutions to community-based hunger through actionable plans.

SKILLS

SQL, Figma, Tableau, Power BI, experimentation, machine learning, A/B testing, probability, statistical analysis, AI, optimization, forecasting, predictive models, recommendation systems, AWS, Git, NLP, Microsoft Office, research

OTHER SKILLS

User research, eCommerce, UX, surveys, marketing, advertising, data-driven storytelling, data journalism, audience insights, digital media, performance analysis, hypothesis testing, UI, Google Analytics, decision sciences
